Hyperion Analyzer

Course Summary

Description

This class provides end user training on the Analyzer product. The training emphasizes Adhoc and Template Reporting using Analyzer against Essbase databases. The course is logically broken down into concise topics giving the students an overall understanding of each subject. All information is presented with practical examples and exercises.

Objectives
At the end of this course, students will be able to:

- Use Analyzer to access data in a multidimensional database
- Learn how to create ad-hoc reports that provide trend, financial, sales, and "what if" analyses
- Create reports that include pivoting, traffic-lighting, sorting, ranking, filtering, and calculations

Topics

- OLAP Overview
- Reporting and Analysis
- Analyzer Overview
- Working with Report Groups
- Working with Analyzer

Audience

This class is intended for users who have little or no prior experience in accessing multidimensional databases for report generation, and who are interested in developing reports with Analyzer.

Prerequisites

There are no prerequisites required for this course.

Duration

One day

Hyperion Analyzer

Course Outline

I. OLAP Overview
- A. OLAP & Multidimensionality Overview
- B. OLAP Concepts & Terms
- C. Introduction to the Sample Database

II. Reporting and Analysis
- A. What's Available?
- B. Analysis Tools
- C. Spreadsheet Reporting
- D. Analyzer Reporting

III. Analyzer Overview
- A. What is Analyzer?
- B. Windows Client
- C. Java Web Client
- D. HTML Web Viewer
- E. Connecting to a database
- F. The Desktop
- G. Navigating the Environment
- H. Reports and Groups

IV. Working with Report Groups
- A. Navigating Groups
- B. Introduction to Reports
- C. Spreadsheets and Charts
- D. Composite Reports
- E. Choosing a Report Right for You

V. Working with Analyzer
- A. Using Cube Navigator
- B. Exploring the Database
- C. Using Dimension Browser
- D. Creating Reports
- E. Rearranging Reports
- F. Managing look and feel
- G. The Information Panel
- H. Adding Calculations
- I. Setting up Calculations
- J. Using Traffic Lights to Spot Exceptions
- K. Analyzer Right-Click Options
- L. Formatting Data
- M. Using Report Manager
- N. Using Print Options
