

NV 3063 GroupWise 7.0 Administration

Course Summary

Description

With GroupWise 7.0 Administration (Course 3063), students will get an in-depth look at GroupWise 7 administration and hands-on experience performing many essential tasks. Starting with basic skills—such as installation and configuration—this course becomes gradually more complex, teaching you how to expand your system and manage GroupWise WebAccess, Messenger and Monitor.

Objectives

At the end of this course, students will be able to:

- Install and configure a basic GroupWise system on Novell Open Enterprise Server - NetWare
- Administer and maintain a basic GroupWise system
- Install, configure and optimize GWIA
- Expand and monitor a GroupWise system
- Install and configure GroupWise WebAccess and Novell Messenger
- Install and configure a basic GroupWise system on Novell Open Enterprise Server - Linux

Topics

- Installing and creating a basic GroupWise system
- Performing GroupWise administration tasks
- Maintaining a basic GroupWise system
- Creating and adding GroupWise Post Office users
- Identifying database and system maintenance issues
- Installing and configuring GWIA
- Optimizing and configuring additional GWIA properties
- Expanding your GroupWise system
- Maintaining an expanded GroupWise system
- Installing and configuring GroupWise WebAccess
- Monitoring the WebAccess Agent
- Installing and configuring Novell Messenger
- Optimizing Novell Messenger
- Monitoring your GroupWise system via the Web
- Running GroupWise Monitor reports
- Expand Your System with GroupWise on Open Enterprise Server - Linux

Audience

- NetWare CNAs or those with equivalent experience
- GroupWise system administrators, integrators and engineers
- Networking consultants
- Reseller and partner technical-support staff
- New GroupWise customers

Prerequisites

- CompTIA A+
- CompTIA Network+
- Foundations of Novell Networking (Novell course 3001 or 3016)
- Novell Network Management (Novell course 3004 or 3042)

Equivalent networking experience—on either Linux or Windows—also provides the necessary background information for this course.

Duration

Five days
