ProTech Professional Technical Services, Inc.

Informatica Metadata Manager Training

Course Summary

Description

This two day course is intended for end users who need to use the MM user interface in their daily activities involving lineage and impact analysis, and for Metadata Administration professionals who will administer the product and configure, execute and monitor metadata resource loads.

Objectives

- Understand metadata concepts and configure Metadata Manager
- Set up security
- Configure, execute and monitor the loading and linking of metadata from source applications
- Define custom metadata models
- Load metadata for custom metadata models
- Load business glossary and link glossary terms with technical metadata objects
- Browse & search the metadata catalog
- Display & interact with lineage diagrams
- Find valuable information in lineage diagrams

Topics

- Overview
- Loading Metadata with a Packaged XConnect
- Loading Metadata with a Custom XConnect
- Reporting
- BG XConnect

Prerequisites

- Metadata concepts
- Database concepts
- Basic PowerCenter familiarity

Duration

Two Days
