

Microsoft Office OneNote 2016

Course Summary

Description

In our fast-paced digital world, the need to capture ideas, meeting notes, and to-do items is ever present. Microsoft Office OneNote 2016 provides a way for you to efficiently create and collect your notes in an electronic notebook. This course will introduce you to using OneNote notebooks to store a wide variety of content in an organized structure, access the content from anywhere, and also share it with others. Additionally, learning how OneNote and the other applications in the suite are integrated increases your productivity with Microsoft Office.

Objectives

At the end of this course, students will be able to:

- Develop digital note-taking skills by creating, modifying, and managing OneNote notebooks that work with other Microsoft Office programs.
- Navigate and customize the OneNote interface and environment.
- Add and format text, images, audio, links, and drawing objects to a notebook.
- Embed Excel spreadsheets and attach other files to a notebook.
- Categorize, organize, and search notebook content.
- Check spelling in, print, and password-protect notebooks.
- Use Outlook and OneDrive to send and share notebook content.
- Export notebook content and manage notebook history and backups.

Topics

- Getting Started with OneNote
- Adding and Formatting Notebook Content
- Embedding and Attaching Files
- Organizing and Searching Notebooks
- Finalizing a Notebook
- Managing Notebook Files
- Sending and Sharing OneNote Content

Audience

This course is intended for people in a variety of roles and fields who have a basic understanding of Microsoft Office 2016 and want to incorporate digital note-taking and note collaboration by using Microsoft OneNote 2016. In addition to creating and modifying OneNote notebooks, this course will introduce you to inserting images and embedding files into notebooks, categorizing content, sharing content with OneDrive, and exporting content to other file formats.

Prerequisites

To ensure your success in this course, you should have Windows end-user skills that include starting and closing applications, navigating basic file structures, and managing files and folders. Previous experience with OneNote is not required; however, having a basic understanding of the Microsoft Office productivity suite would be beneficial. You can obtain this level of skill and knowledge by taking either one of the following courses, or any similar course in general Microsoft Windows skills:

- Using Microsoft Windows 10
- Microsoft Windows 10 Transition from Windows 7

Duration

One day

Microsoft Office OneNote 2016

Course Outline

- I. Getting Started with OneNote**
