

Citrix Gateway 12.x CNS-221

Course Summary

Description

Learn the skills required to configure and manage Citrix Gateway features. At the end of the course, students will be able to configure their Citrix Gateway environments to address remote access requirements for Apps and Desktops.

Objectives

After taking this course, students will be able to:

- Configure Authentication and Authorization
- Define End User Access and Experience
- Integrate Citrix Gateway with Citrix Virtual Apps and Desktops and additional resources
- Employ recommended tools and techniques to troubleshoot common Citrix Gateway network and connectivity issues

Topics

- Citrix Gateway
- AppExpert Expressions
- Authentication, Authorization, and Secure Web Gateway
- Managing Client Connections
- Integration for Citrix Desktops and Citrix Virtual Apps Solutions
- Configuring Citrix Gateway

Audience

This course is built for IT Professionals working with Citrix Gateway, with little or no previous Citrix Gateway experience. Potential students include administrators, engineers, and architects interested in learning how to deploy or manage Citrix Gateway environments.

Prerequisites

Citrix recommends students prepare for this course by taking the CNS-220 Citrix ADC 12.x Essentials and Traffic Management course (PT20670).

Duration

Two days
