

Team Kanban Practitioner (TKP)

Course Summary

Description

This one-day course teaches the basics of the Kanban Method and serves as the entry level and starting point to an alternative path to agility. Achieve the Team Kanban Practitioner credential with the Lean Kanban University by successfully completing this course.

This course provides:

- 7 PDUs / 7 SEUs
- Lean Kanban University (LKU) certificate
- Profile listing on the LKU alumni page
- Two free books, newsletter subscription, and more
- Registered Education Provider with LKU and PMI

All attendees receive a free electronic copy of either [Kanban](#) by David J. Anderson or [Kanban from the Inside](#) by Mike Burrows. In addition, you will receive a physical copy of one other book of your choice from our list of recommended reading. You will choose a book after successfully completing the course.

Objectives

After taking this course, students will be able to:

- Become familiar with the Kanban Method.
- Design and implement a basic Kanban board.
- Understand work item types and the risks associated with specific work items.
- Be familiar with a variety of different Team Kanban board designs and styles and know how to choose a design that is best suited for their context.
- Be aware of the training roadmap and the value and benefits to be derived at each step on the "alternative path to agility."

Topics

- Overview of the Kanban Method
- Understanding Kanban Systems
- Team Kanban Simulation
- Proto Kanban
- Kanban Board Design
- Implementing Feedback Loops
- Commitment and Replenishment

Audience

This course is designed for team members in professional services roles whose employer wishes to explore and pursue an alternative path to agility. Those who feel overburdened and wish to find some respite to enable them to "get things done" with quality, improved speed, and predictability would also benefit from this course. This course is ideal for managers and team members who need help focusing on what to work on now, what to leave until later, and what to discard altogether. Those who want relief from overburdening so that they can take pride of workmanship, and do good quality work in an effective manner should attend this course.

Prerequisites

There are no prerequisites for this course.
