

Team Kanban Practitioner (TKP)

Course Summary

Description

The Team Kanban Practitioner (TKP) course gives you the knowledge and tools to boost your Agile team performance and provides the foundations to be an effective Kanban practitioner.

This 1-day course guides you in the foundations of the Kanban Method® and serves as a fast starting point to an alternative path to Real Agility™. This course is designed for you if you are facilitating teams doing projects, operations, development, support, or research. You will learn how to organize your work, improve transparency, identify bottlenecks, visualize workflow, improve communication, and enhance team collaboration.

Learn core concepts of the Kanban Method with a progressive learning approach including a highly interactive simulation and focused collaborative hands-on exercises. Achieve the Team Kanban Practitioner (TKP) designation with Kanban University by successfully completing this course.

Topics

- Boost your Agile team performance.
- Improve your team member's work environment and well-being.
- Design and implement a basic Kanban board.
- Understand work item types and the risks associated with specific work items.
- Be familiar with a variety of different Team Kanban board designs and styles and know how to choose a design that is best suited for their context.
- Be aware of the training roadmap and the value and benefits to be derived at each step on the 'Alternative Path to Agility'.

The above list of learning objectives is in addition to the basic learning objectives required by the Kanban University.

Audience

This course is designed for:

- Team Leads
- Project Managers
- HR Managers
- Functional Managers
- Executive Assistants
- Quality Leads
- Sales People

Who should attend Team Kanban Practitioner:

- If you have been doing Agile or Scrum for years, this course is a valuable supplement that addresses many common challenges.
- If you are considering using Kanban, this is a great opportunity to learn about the core practices of Kanban, how Kanban can help your team work better together, discuss some common challenges to getting started, and what results to expect.

Team Kanban Practitioner (TKP)

Course Summary (cont'd)

Audience (cont'd)

The Team Kanban Practitioner course is strongly recommended for Team Leads and HR Managers who are responsible for creating a high performance work environment, Managers who want to transform their organizations, and Project Managers who need to know how to work with Agile and Scrum teams.

- Team members for almost any kind of service or delivery and anyone in a professional services role. This course should be of particular interest for those who feel overburdened and wish to find some respite to enable them to “get things done” with transparency, quality, improved speed, and predictability.
- Managers and team members who need help focusing on what to work on now, what to leave until later and what to discard altogether.
- Those who want to take pride of workmanship and do good quality work in an effective manner.
- Individuals that need to manage their work more effectively, feel overburdened, have too much work in progress, or that receive either unpredictable or bursts of work at specific times.
