

## **SAFe Scrum PMO Certification Program**

### **Course Summary**

#### **Description**

SAFe 4.0 Product Manager/Product Owner is delivering customer value through effective execution and coordination of program increments in the enterprise. In this two-day course, you will learn how the roles of Product Manager, Product Owner, Solution Manager, and Epic Owner drive the delivery of value in the SAFe enterprise. You'll get an overview of the Scaled Agile Framework (SAFe), the Lean-Agile mindset, and an understanding of how the Product Manager and Product Owner roles operate in the enterprise to drive the delivery of value. Finally, you will get an in-depth understanding of the specific activities, tools, and mechanics used to effectively deliver value to the enterprise. By the end of this course, you should be able to write Epics, Capabilities, Features, and User Stories within the context of SAFe, and have a solid foundation for managing backlogs and programs in a Lean-Agile enterprise.

Associated Certification: SAFe Product Manager / Product Owner (PMPO)

- Exam Name: SAFe 4 Product Manager/Product Owner Exam
- Exam Format: Multiple Choice, True/False
- Exam Delivery: Web-based; Open book;
