

VMWare App Volumes: Application and User Profile Management v2.X - EDU-AVAUPM2-OE

Course Summary

Description

This course builds your skills in application management using VMware App Volumes and VMware User Environment Manager. You will learn how to use App Volumes to deliver applications and data to desktops and users in seconds and at scale. You will gain skills in managing application lifecycles from installation to update and replacement. You will also learn how to use User Environment Manager to provide personalization and dynamic policy configuration across virtual, physical, and cloud-based environments to simplify end-user profile management

Topics

- :: Course Introduction
- :: Overview of App Volumes Enterprise
- :: Overview of App Volumes
- :: Installation of App Volumes
- :: Working with AppStacks
- :: Working with Writable Volumes
