

VMware vRealize Log Insight: Deploy and Manage [V4.7] - EDU-VRILDM47-OE v4.7

Course Summary

Description

In this course, you focus on deploying, using, and managing VMware vRealize Log Insight. You learn about the configuration and use of vRealize Log Insight to collect and manage logs from a variety of VMware and third-party products. This course discusses interfacing vRealize Log Insight with other systems to monitor, troubleshoot, and secure a data center.

Topics

- :: Course Introduction
- :: Introduction to vRealize Log Insight
- :: Deploying and Configuring vRealize Log Insight
- :: Using vRealize Log Insight
- :: Administering vRealize Log Insight
- :: Integrating vRealize Log Insight

Audience

This course is designed for experienced system administrators, system integrators, and developers responsible for designing and implementing vRealize Log Insight

Prerequisites

This course requires completion of one of the following courses:

- :: VMware vSphere: Install, Configure, Manage [V6.x]
- :: VMware vSphere: Fast Track [V6.x]

The course presumes that a student can perform the following tasks with no assistance or guidance before enrolling in this course:

- :: Use VMware vSphere Web Client
- :: Perform routine VMware vCenter Server tasks
- :: Perform basic Windows management operations

If you cannot complete all of these tasks, VMware recommends that you complete one of the prerequisite courses before enrolling in VMware vRealize Log Insight: Deploy and Manage.

Duration

2 Days/Lecture & Lab
