

## **Fortinet NSE 5 Bundle - NSE 5 Bundle**

---

### **Course Summary**

#### **Description**

In NSE 5 Bundle, you will learn the fundamentals of using FortiManager for centralized network administration of many FortiGate devices. Example use cases include large enterprise and carrier networks. You will explore various deployment strategies which include single or multiple ADOMs, policy packages, shared objects, and provisioning FortiManager as a local FortiGuard Distribution Server for your managed firewalls. You will also learn how to use FortiAnalyzer. You will explore setup, registering supported devices and securing communications, managing logs and archives, and configuring both predefined and customized reports. This provides a solid understanding of how to integrate FortiAnalyzer into your network awareness infrastructure. These courses are part of preparation for the NSE 5 certification exam.

#### **Duration**

Two Days
