

VMware Workspace ONE: Deploy and Manage v19.x - EDU-WS1DM19- OE

Course Summary

Description

In this five-day course, you will configure and secure unified endpoint activation, registration, and authentication. You will learn how to integrate industry-recognized enterprise technologies with VMware Workspace™ ONE™. Through a combination of hands-on labs, simulations, and interactive lectures, you will learn how to configure and manage the endpoint lifecycle. The principles of enterprise mobility, unified endpoint, and identity management are addressed throughout the course. You will leave the training empowered with the foundational skills and knowledge needed to effectively implement Workspace ONE.

Product Alignment

- Workspace ONE
- Workspace ONE UEM®
- Workspace ONE Identity Manager
- VMware Boxer™
- VMware AirWatch® Content Locker™

Topics

By the end of the course, you should be able to meet the following objectives:

- **Identify and describe major components of the Workspace ONE solution**
- **Identify and describe the enterprise integration and productivity components**
- **Explain the concept of the Digital Workspace and the Digital Workspace experience**
- **Identify authentication technologies used in Workspace ONE**
- **Navigate the Workspace ONE UEM console and the VMware Identity Manager console**
- **Install, configure, and validate integrated components**
- **Explain integration of Workspace ONE solution with directory services**
- **Create and explain environment group structures**
- **Demonstrate end-user Workspace ONE portal configuration**
- **Configure Workspace ONE registration and activation**
- **Enroll and manage mobile devices and endpoints**
- **Provision and secure applications**
- **Enable the unified application catalog.**
- **Apply single sign-on and multifactor authentication**
- **Integrate with virtual desktop infrastructure (VMware Horizon® virtual desktops and applications)**
- **Create and implement profiles, authentication policies, and role-based access controls**
- **Explain and issue device commands**
- **Manage email configurations**
- **Integrate with content resources and provision access**
- **Explain and analyze reporting and auditing**
- **Leverage Workspace ONE Intelligence for advanced reporting and automation**
- **Apply general troubleshooting techniques**
- **Implement unified endpoint management with Workspace ONE**

Audience

Due to the nature of this material, this document refers to numerous hardware and software products by their trade names. References to other companies and their products are for informational purposes only, and all trademarks are the properties of their respective companies. It is not the intent of ProTech Professional Technical Services, Inc. to use any of these names generically

Workspace ONE administrators, experienced mobility and identity administrators, account managers, solutions architects, solutions engineers, sales engineers, and consultants
