

VMware vRealize Operations and vSAN Integration Workshop - EDU-VROVSANIWS-OE

Course Summary

Description

This two-day course explains how to use and configure VMware vRealize® Operations™ version 7.0 to work with VMware vSAN™ 6. This course explains concepts and practical applications of vRealize Operations in reference to vSAN.

Topics

By the end of the course, you should be able to meet the following objectives:

- List and describe the uses of vRealize Operations when applied to vSAN
- Use the product UI to navigate through built-in vSAN specific dashboards
- Review the built-in vSAN specific dashboards for key vSAN information
- Create your own vSAN specific dashboards
- Assess performance and optimize vSAN workloads
- Perform vRealize Operation capacity optimization
- Assess policies related to vSAN
- Perform vSAN troubleshooting using vRealize Operations

Audience

vSAN and VMware vSphere® administrators

Prerequisites

At a minimum, students attending this course should have completed the VMware vSAN: Deploy and Manage [V6.x] course or have equivalent knowledge. Some experience with basic operations of vRealize Operations might also be helpful. The course presumes that a student can perform the following tasks with no assistance or guidance before enrolling in this course:

- Use VMware vSphere® Client™
- Perform routine VMware vCenter Server® tasks
- Configure a vSAN datastore.
- Perform routine vSAN maintenance tasks.

Duration

5 Days
