

Tableau Desktop Bootcamp III

Course Summary

Description

We offer Tableau Desktop Bootcamp training designed to take users from a beginner to advanced levels. This course is a combination of the Tableau Desktop Fundamentals, Intermediate and Advanced curriculum. It is for anyone who works with data – regardless of technical or analytical background – some statistical and Excel experience is required for the more advanced concepts. Training Tableau beginners to advanced levels is the goal of this class.

Leave chart builders behind. Live visual analytics fuel unlimited data exploration. Interactive dashboards help you uncover hidden insights on the fly. Tableau harnesses people's natural ability to spot visual patterns quickly, revealing everyday opportunities and eureka moments.
