

## CA File Master Plus for DB2 for IMS: User Basics 200

---

### Course Summary

#### Description

CA File Master Plus for IMS is an IMS database data manipulation tool that speeds segment editing and data creation. CA File Master Plus for IMS enables you to work interactively via ISPF or issue commands in batch, browse and edit data, and make quick changes to production or test databases.

Using step-by-step demonstrations and simulations, this course shows you how to browse and edit IMS databases and use additional utilities.

#### Objectives

By the end of this course, students will be able to:

- Access and personalize your CA-File Master Plus for IMS environment
- Browse and edit IMS databases
- Filter data using selection criteria
- Use utilities

#### Topics

- Display Setup and Processing Parameters
- Browse IMS Databases
- Edit IMS Databases
- Utilities

#### Audience

This course is designed for:

- Database Administrator
- Developer
- QA/QC Tester
- Database Analyst

#### Prerequisite

- Familiarity with IMS databases
- Experience with Interactive System Productivity Facility/Program Development Facility (ISPF/PDF)

#### Duration

One Hour

## CA File Master Plus for DB2 for IMS: User Basics 200
