

Cisco Contact Center Enterprise Advanced Administration (CCEAA)

Course Summary

Description

Cisco Contact Center Enterprise Advanced Administration (CCEAA) is a 3-day instructor-led course intended for system engineers and customers who will be deploying and administering advanced Packaged Contact Center Enterprise functionality.

Objectives

At the end of this course, students will be able to:

- Describe the components, protocols, and call flow of PCCE by referencing the discovery platform to prepare for further scripting and configuration activities.
- Run the CCE Bulk Import utility using the CCE Web Administration tool to develop a baseline CCE configuration
- Configure an advanced VXML application implementing DB lookup functionality and digit collection using Call Studio and CCE Scripting tools in order to present call data collected from the caller to the Agent desktop.
- Provision CCE to support CUCM calls to the Contact Center using UCM and CCE configuration tools. This will enable CCE Route Requests from CUCM to support contacts initiated from a CUCM managed device (Gateways, Phones, Line Side IVR Ports). This may be to enable non-Contact Center calls and calls handled by Agents whether existing or new.
- Access and deploy custom gadgets to the Finesse desktop using the CCE Web Administration tool to further enhance functionality of the Finesse Agent Desktop.
- Successfully deploy Mobile Agent in a CCE Environment.
- Successfully deploy Post Call Survey in a CCE Environment.

Topics

- PCCE Review
- Introducing Bulk Import Tools
- Configuring Advanced Scripting and CCE Data Exchange
- CUCM Initiated Call Flows
- Using Gadgets to Customize the Finesse Desktop
- Implementing Mobile Agent
- Implementing Post Call Survey

Audience

This course is intended for system engineers and customers who will be deploying and administering advanced Packaged Contact Center Enterprise functionality

Prerequisites

The knowledge and skills that students are expected to have before attending this course are:

- Basic knowledge of networking (Windows A/D, SQL) and components (servers, routers, switch) is helpful but not required.
- Working knowledge of Unified Communications Manager and voice gateways.
- Basic understanding of Cisco Unified Contact Center Enterprise architecture and operation.

Here are recommended Cisco learning offerings that may help students meet these prerequisites:

- Cisco CLFNDU
- Cisco CLCOR
- Cisco CCEF
- Cisco CCEA

Duration

Three days

Cisco Contact Center Enterprise Advanced Administration (CCEAA)

Course Outline

I. *PCCE Review*

- A. PCCE Architecture and Components Review
- B. PCCE Protocols Review
- C. PCCE Call Flow Review
- D. PCCE Access Tools Review
- E. Discovery 01-1: Review Discovery
- F. Discovery 01-2: Navigating CCE Discovery Architecture and Components

II. *Introducing Bulk Import Tools*

- A. Use the PCCE Bulk Import Tool
- B. Use Bulk Import Templates
- C. Discovery 02-1: Importing Bulk Data

III. *Configuring Advanced Scripting and CCE Data Exchange*

- A. Design for Advanced Scripting
- B. CCE Data Exchange
- C. Using Call Studio
- D. Implement Database Lookup using VXML
- E. Collect Response from the Caller
- F. Invoking Call Studio Applications with CCE Routing Scripts
- G. Discovery 3-01 Creating VXML Application using Call Studio
- H. Discovery 3-02 Configure Precision Queues
- I. Discovery 3-03 Creating CCE Routing Script
- J. Discovery 3-04 Customizing Finesse Desktop
- K. Discovery 3-05 Testing your Call Flow

IV. *CUCM Initiated Call Flows*

- A. Understand Transfer Types and CVP Call Flow Models
- B. Describe Subsequent Transfers
- C. Perform UCM Configurations for Transfers
- D. Configure CUCM as Routing Client and Agent Transfers
- E. Discovery 4-01 Configure CUCM as Routing Client and Agent Transfers

V. *Using Gadgets to Customize the Finesse Desktop*

- A. Obtain Finesse Custom Gadgets
- B. Deploy Finesse Custom Gadgets
- C. Discovery 5-01 Deploying Finesse Gadgets

VI. *Implementing Mobile Agent*

- A. Examining Mobile Agent Functionality
- B. Identify Mobile Agent Architecture and Components
- C. Configuring Mobile Agent
- D. Logging in as Mobile Agent
- E. Planning Mobile Agent Design and Integration
- F. Discovery 6-01 Implementing Mobile Agent

VII. *Implementing Post Call Survey*

- A. Examining Post Call Survey Functionality
- B. Configuring Post Call Survey
- C. Reporting Considerations for Post Call Survey
- D. Discovery 7-01 Implementing Post Call Survey
