

## SEN200V-v004 SAP Enable Now – Training for Master Authors

---

### Course Summary

#### Objectives

At the end of this course, students will be able to:

- Customize the look and feel of your learning content by using styles, settings, and sustainable templates.
- Structure your content best depending on your usage scenario.
- Use tags, filters, and multi-referencing.
- Collaborate with your authoring team, including task assignment and workflows.
- Deploy content updates, migrate, localize, and publish to different platforms (for example, SCORM export).
- Set up and configure the server for SAP Enable Now Manager and configure user access by creating and importing users and assigning user roles and permissions.
