Hyperion System 9 BI & Interactive Reporting Advanced Designing Dashboards Using Dashboard Studio

Course Summary

Description

This course utilizes Hyperion System 9 BI+ Dashboard Studio to develop complex dashboards without the need for JavaScripting experience. The Advanced Designing Dashboards course is very interactive class using a hands-on style during the class.

Objectives
At the end of this course, students will be able to:

- Creating advanced dashboards with Hyperion Dashboard Studio
- Developing customized templates and frames
- Configuring advanced Dashboard Studio features
- Incorporating components within dashboards
- Using the Optimize to implement changes in Interactive Reporting (BQY) documents

Prerequisites

Students must have a solid understanding of Hyperion Interactive Reporting client and experience in developing queries and reports. In addition, the Designing Dashboards Using Dashboard Studio course or experience developing dashboards using Hyperion Dashboard Builder is required.

Duration

One day
