

## **MOC 40365 A Windows Server Administration Fundamentals: MTA Exam 98-365**

### **Course Summary**

#### **Description**

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-365, and build an understanding of these topics: Server Installation, Server Roles, Active Directory, Storage, Server Performance Management, and Server Maintenance. This course leverages the same content as found in the Microsoft Official Academic Course (MOAC) for this exam.

#### **Objectives**

At the end of this course, students will be able to:

- Understand Server Installation
- Understand Server Roles
- Understand Active Directory
- Understand Storage
- Understand Server Performance Management
- Understand Server Performance Management

#### **Topics**

- Server Overview
- Managing Windows Server 2008 R2
- Managing Storage
- Monitoring and Troubleshooting Servers
- Essential Services
- File and Print Services
- Popular Windows Network Services and Applications

#### **Audience**

The Microsoft Technology Associate (MTA) is Microsoft's newest suite of technology certification exams that validate fundamental knowledge needed to begin building a career using Microsoft technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

#### **Prerequisites**

There are no prerequisites for this course.

#### **Duration**

Three days
