

MOC 40363 A Web Development Fundamentals: MTA Exam 98-363

Course Summary

Description

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-363, and build an understanding of these topics: Programming Web Applications, Working with Data and Services, Troubleshooting and Debugging Web Applications, Working with Client-Side Scripting, and Configuring and Deploying Web Applications. This course leverages the same content as found in the Microsoft Official Academic Course (MOAC) for this exam.

Objectives

At the end of this course, students will be able to:

- Program Web Applications
- Work with Data and Services
- Troubleshoot and Debug Web Applications
- Work with Client-Side Scripting
- Configure and Deploy Web Applications

Topics

- Creating a Web Page
- Creating an Interactive Web Page
- Working with XML, Data Objects, and WCF
- Working with Data
- Working with Client-Side Scripting
- Troubleshooting and Debugging Web Applications
- Configuring and Deploying Web Applications

Audience

The Microsoft Technology Associate (MTA) is Microsoft's newest suite of technology certification exams that validate fundamental knowledge needed to begin building a career using Microsoft technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

Prerequisites

There are no prerequisites for this course.

Duration

Three days
